

Galaxy – Custom turntable with Schneider core and micro Seiki Tonearm

This model stands out due to its larger casing, allowing for visual variety and creative painting possibilities. For durability, the galactic motif is applied using flatbed printing technology. The additional light magic will make it hard to take your eyes off this record player/lamp/sculpture.

Music quality o

The built-in phono preamp allows the turntable to connect directly to an amplifier through the aux input, while the Bluetooth transmitter enables a wireless connection to your speaker, headphones, or amplifier.

The quality of musical reproduction is ensured by a heavy cast platter, a massive casing, a silent belt drive, and a high-quality Micro Seiki tonearm with an Audio Technica elliptical stylus.

The Galaxy Music & Light model is a one-of-a-kind masterpiece, designed to deliver exceptional entertainment and evoke vibrant, joyful feelings. For orders and further details, click this link...!
