

Reflector – Custom turntable with Mirror and light

The idea came from the metallic shiny appearance of this model, so the only option was to create a play of light using mirrors.

The built-in Bluetooth transmitter and Phono preamplifier have modernized this model, and the light show adds to the visual effect...

The device is mechanically reliable, with basic operations, for simple and dependable use.

The remote control and mobile application manage the built-in light effects.

The Reflector Music & Light model is a unique masterpiece, crafted to provide exceptional entertainment and evoke vibrant, joyful emotions.
